

## Rochester Regional Breastfeeding Coalition

Meeting Agenda

June 25, 2015, 5p – 6:15pm

***Our mission: To improve the health of the Greater Rochester Region by promoting breastfeeding as the optimal feeding choice for infants through education, advocacy, collaboration, and increasing access to support.***

Mantra (to be recited by all): *Our coalition exists to promote breastfeeding in our community, not to promote our individual contributions to breastfeeding. My contributions to this community are valuable. I will work to remain positive and open. I will seek to balance when I speak and when I listen. I recognize there is no "You should" but only "I will" in our coalition.*
